--------------	------------	----------

Complete your Backflow Device
Inspection and submit your test results
online at www.pwd.org

Failure to respond by

May 14, 2018

**may result in disconnection of
the water service**

The State of Maine and the Portland Water District's Rules require that the Backflow Device(s) listed in this letter be inspected annually. The test is necessary to ensure public health is protected.

Please make arrangements to have your backflow device(s) inspected and certified **as passing within 90 days** of this letter. No additional reminders will be sent.

Inspection must be performed by a person certified by New England Water Works Association or the American Backflow Prevention Association. Please visit our web site for a list of approved inspectors.

Passing test results must be submitted at <https://www.pwd.org/cross-connections> using our online Backflow Device Test Results Page.

The information included in this letter is necessary to complete the online process. If your Backflow Device fails inspection, you must make the necessary repairs.

If you have any questions, please visit our web site at www.pwd.org or contact one of our Customer Service Coordinators at 207-761-8310, Monday through Friday, between 8:00 a.m. and 4:30 p.m.
